

**ORDO EQUESTRIS VINI EUROPAE  
NOS SENATUS**

Freistadt Eisenstadt + Stift Klosterneuburg, im September a. D. 2015

**Europe in autumn 2015**

Dear Europeans!

*The Ordo Equestris Vini Europae is hosting in the wine month of October its annual, international foundation fest which stands in the pan-European character of freedom, peace, friendship and joy. Lately there were events that fill us with great concern and an assessment in the cultural diplomatic sense is required.*

1. Acts of Mercy, whether from a Christian, moderately conviction or social, charitable responsibility, are from the knightly point of a priori completely correct and good example! We are continuously called anew to do good, to help those in need, whether in their home countries or in the nearby security zones; The rapid cessation of hostilities has priority
2. The question arises: Are we currently using the right tools? The Bible teaches us the commandment of charity. This is the only key to world peace: living in peace with ones neighbours.
3. We do not help there where the need is, but we operate as an emergency transfer. For the purposes of misguided humanitarianism we degrade people, and thus deprive them of their human dignity and also promote the "towing" of people in gigantic way. Regardless of the individual, or its actual status, these people are not refugees or asylum seekers, but are considered „Towed people".
4. If we want to reach the top level of enlightenment or want to maintain it, peace must be secured. One of the most important peace requirements is tolerance! As a result of the uncontrolled flood of people a number of qualitative (language, profession, culture, religion, reputation) and quantitative (number, proportionality, sound judgment, capacity) problems arise, deficiencies that jeopardize this peace in a massive and lasting way. The decision-makers also have to perceive responsibility for our local citizens.
5. The motives are obviously mainly the "illusion of a better life". A higher standard of living cannot be achieved by higher claims but only by higher performance.
6. Asylum is not a permanent resettlement, but it is a protection on time for those who are actually endangered. Therefore, peace can only be guaranteed if the current national / European plight degrades rapidly under the applicable laws: in guaranteeing a safe return.

*Elite is in spite of everything always obliged to be optimistic. So we rely on the works of mercy and the perception of responsibility to ensure the peace requirement of tolerance. Thus fortified, we continue to meet our chivalrous pilgrimage of truth, goodness and beauty and look forward to our Christian Mass offering, our European peace procession and nurse our personal friendships at the international Foundations fest 2015*

With Knightly regards

**PAX et LAETITIA SEMPER NOBISCUM  
IN HONOREM DEI et IN HONOREM VINI**
